

THE LEGACY OF ANDREW CARNEGIE...

In 1906, the year of the San Francisco quake and the heyday of millionaire industrialists, Andrew Carnegie donated to the City of Oxnard a grand, neo-classical library.

Today his legacy of making knowledge available to all continues as the Carnegie Art Museum educates and enhances lives through art.

This tribute to Greek architecture hosts changing exhibits of California art and influential art movements. Past and contemporary artworks from collectors, professional artists, and major museums engage and inspire.

Selections from the growing permanent collection, begun in the 1920s, are also periodically on view. Among the collection's focuses are California Impressionism, Hollywood photography and Latino art.
